

# CUSTOM PACKAGING SOLUTIONS

[www.displaypack.com](http://www.displaypack.com)

You've perfected your product.  
**We've perfected how to showcase it.**

At Display Pack, we craft custom thermoformed packaging solutions for the food, retail, & industrial markets. We work with brand-owners, distributors, & retailers to provide unique products that stand out on store shelves.

With 40,000+ items stocked in the average supermarket, we believe that

our packaging is your in-store sales representative that breaks through the noise by protecting, marketing, & selling your product like no one else can.

We know that your unique product deserves packaging to match.  
**Let's talk.**

## Materials

- 100% Post-consumer rPET
- Post-industrial rPET
- Virgin PET
- Foamed PET
- PLA
- PP
- Barrier Materials

## Our Process

### NEEDS ASSESSMENT

Your sales representative will work closely with you to capture your unique needs; including a walk through of the product journey & desired consumer experience.

### DESIGN, DRAWINGS, & QUOTE

Our dedicated design team collaborates with you to provide designs that meet the identified aesthetic & functional goals for your package.

### PROTOTYPING

Once the drawing is approved, we move to prototyping. You will receive a physical prototype to evaluate and approve form, fit & function of the final product.

### TOOLING & MANUFACTURING

After the prototype is approved, we will craft your custom tooling in our in-house tool & die shop within 6 - 8 weeks. Then it will run on one of our 17 manufacturing lines.

### CONTINUED SUPPORT

Our job doesn't stop after the first production run. Our customer support team exists to meet your ongoing needs; including inventory & supply management, shipping, & more.
