

FRESHNESS YOU CAN SEE,
PACKAGING YOU CAN

TRUST

Square Produce Bowls

Tamper evident, leak resistant, & recyclable? You can have all three with our square produce containers.

You've perfected your product.

We've perfected how to showcase it.

Choose Display Pack's Square Produce Containers For:

CLEAN DESIGN & FLEXIBILITY

Choose our square produce packaging line for a clean, sleek design paired with excellent package clarity for increased visibility. This packaging line is designed with stacking strength in mind by featuring strong rail features for merchandising flexibility around the store perimeter. This tamper-evident line features sizes from 12 oz to 40 oz; ensuring you have options to fit your unique needs. Tap into the \$17 billion industry of value added cooking solutions that provide consumers with the time-saving products they need via diced veggies, fresh cut produce, & more in our produce-ready containers. Alternatively, offer ready to eat salads and provide grab-and-go solutions for the \$12 billion ready-to-eat market. Whatever your need, we have a solution.

PEACE OF MIND FOR YOU & YOUR CUSTOMERS

Our patented tamper-evident indicator alerts the consumer if a product was previously opened prior to purchase; increasing buyer confidence in product safety, quality, and freshness. The lid is simply snapped on to the base to close. The package can only be opened by pressing down on the tamper evident device with one hand and pulling up on the lid tab with the other – thus activating the indicator. Our leak-resistant packaging protects against spills in-store or in-home reducing the potential for messes and consumer frustration in one fell swoop. All of our packaging is FDA approved and produced in our Safe Quality Food Level II certified facility. So you can rest easy.

SUSTAINABILITY & COST-SAVINGS

Consumers desire easy ways to reduce their plastic packing footprint. We answer these demands through our packaging offerings manufactured in a post-industrial recycled & FDA approved PET material. These containers feature a #1 recycle code indicating their wide acceptance through traditional curbside recycling programs. We intentionally design our square produce packaging with a separate lid + base to utilize the minimum amount of plastic required while still meeting strength requirements and delivering a superior branded experience.

Good for the earth; good for your wallet.

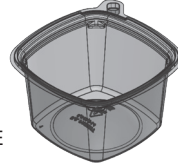

Looking for a food packaging unique to your brand?
We can make that happen. Let's talk.
