FRESHNESS YOU CAN SEE,
PACKAGING YOU CAN

TRUST®

Multi-Use Tamper Evident Containers

Your answer for safe, elegant, & cost-effective
tamper evident packaging.

You've perfected your product.
We've perfected how to showcase it.

Choose Display Pack's Tamper Evident Packaging For:

SLEEK LINES & CLEAN DESIGN

We've paired our unique one-lock tamper-evident closure with sleek sidewalls and minimally designed structural features for ultimate packaging clarity and clean lines. Our tamper-evident line doesn't contain unsightly ribbing that can cheapen the overall perception of the product offering. Our goal? Make your product stand out on store shelves by maximizing product visibility.

COST-SAVINGS & SUSTAINABILITY

Display Pack's two-piece tamper-evident packaging eliminates the need for sharp tear-away plastic strips that are not recyclable in conventional recycling streams[1]. Our design utilizes significantly less plastic content versus clamshell packaging. It is produced in post-industrial rPET and features a #1 recycle code for superior acceptance via curbside recycling programs.

Better for the environment, better for your wallet.

SECURITY & PEACE OF MIND FOR YOU & YOUR CUSTOMERS

Our patented tamper-evident indicator alerts the consumer if a product was previously opened prior to purchase; increasing buyer confidence in product safety, quality, and freshness. Our leak-resistant packaging protects against spills, either in-store or at home, reducing the potential for messes and consumer frustration in one fell swoop. All of our packaging is FDA approved and produced in our Safe Quality Food Level II certified facility. So you can rest easy.
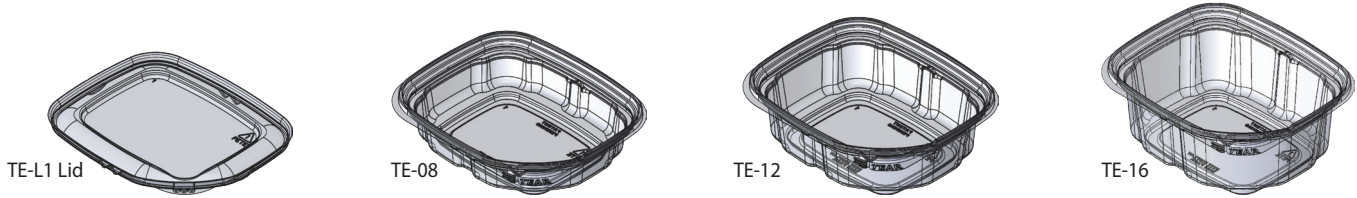

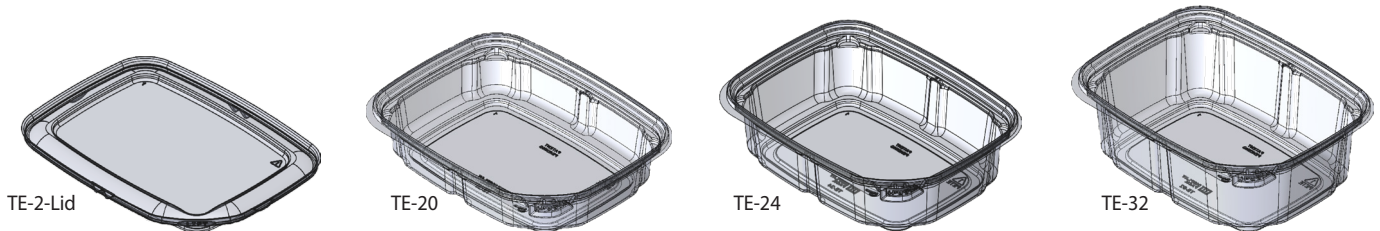

VERSATILE PRODUCT OFFERINGS

Our tamper-evident line is available in a variety sizes from 8 to 85 ounces to meet a wide variety of produce, deli, bakery, and on-the-go snack packaging needs. The 8-12, 16-32, and 48-85 ounce containers share common lids and distinct rail features for optimal stacking, denesting, and assembly – either in store or at processing level.

**Looking for a custom size? We know a thing or two about custom packaging.
Let's talk.**
